Microsoft Teams

ADAPT 460T

ADAPT 460

Optimized for UC

## Reasons to buy

Enables today's workers to take great sound with them everywhere. Modern workers value a UC headset that provides concentration on demand, high quality music to help focus at work, delivers clear business calls and looks subtly stylish.

## Value for channel partners

- Boost your UC revenue and adoption, considering 40% of all UC licenses are undeployed<sup>1</sup>
- Be the "one-stop-shop" for the perfect "UC kit", delivering UC optimized headsets in a variety of wearing styles
- Increase user satisfaction with a premium, portable UC headset in the user's preferred wearing style (in-ear)

## What make us stand out

- Advanced four microphone hybrid ANC system, that combines both feedback and feedforward systems for the most powerful active noise cancellation
- Superior comfort and fit in a lightweight construction and comfortable earbuds, with versatile single or double-use
- Sleek stylish design, built with premium materials (stainless steel plate on the earbuds)

## The way we work 2019

23%

choose **noise cancellation** as one of their three most important criteria when evaluating a headset

29%

use a **headset** during an average workday for making calls while walking around the office

63%

say **loud colleagues** are their greatest distraction
