

ADAPT 600 Series

Certified for Microsoft Teams,
optimized for UC

ADAPT 660

The way we work 2019

85%
expect to see an increase in mobility in the workplace through activity-based or agile workplaces

29%
use a headset or headphones during an average workday for making calls while walking around the office

63%
say **loud colleagues** are their greatest distraction

Reasons to buy

The way we work is changing: UC headset must support flexible working style, high-quality and design for in and out of the office usage. Offer a headset that places your customer at the center of an **immersive, personalized audio experience** - combining state-of-the-art technology, contemporary design and their **will to succeed**.

Value for channel partners

- Stay relevant with an up-to-date premium Bluetooth® headset
- Advanced smart features to create a personalized audio experience
- Refined design, crafted from premium materials
- Avoid distraction and boost your team's performance with hybrid ANC

What make us stand out

- Enterprise headset developed with machine learning microphone that enhances natural speech
- Smart sidetone that improve call experience by making it focus on the call and not the environment
- Adaptive ANC which automatically removes wind noise
