Reasons to buy

Allow your customers to stay agile, enhance focus and ensure call clarity with an audio solution that champions their professional performance.

Value for channel partners

- Staying relevant within today's UC audio solutions
- Be the "one-stop-shop" for UC headsets in different wearing styles
- Ensure complete integration with a headset certified for Microsoft Teams and optimized for UC
- Single device for users who place a high value on UC collaboration in and out of the office
- Increase user satisfaction with refined design that feels at home in the office and on the commute

The way we work 2019

 **29%**
use a headset or headphones to concentrate

 **60%**
of those who primarily use a headset to concentrate at work, are using their personal ones

 **32%**
consider the ability to **cancel and eliminate noise** a top value for their headset

What make us stand out

- Talk-through allows you to interact with your surroundings with a single tap
- A discreet boom arm that folds away when not in use
- Comfortable, on-ear wearing style and a dual folding design that packs away neatly
